

# CHNA

## Are you familiar with the requirements for maintaining your hospital's tax-exempt status under the Affordable Care Act?

The 2010 Affordable Care Act requires that all 501(c)(3) hospitals conduct a community health needs assessment (CHNA) to maintain tax-exempt status. The Quality Management Consulting Group (QMCG), a nationally recognized leader in health care consulting, provides the support you need to develop a CHNA report and implementation strategy that complies with this requirement.

Allow QMCG's team of attorneys and experienced regulatory specialists to guide you through the process from planning and development to implementation.
